

Power of AI and Emerging Markets Expertise

ESG FOR CORPORATES

The need for ESG

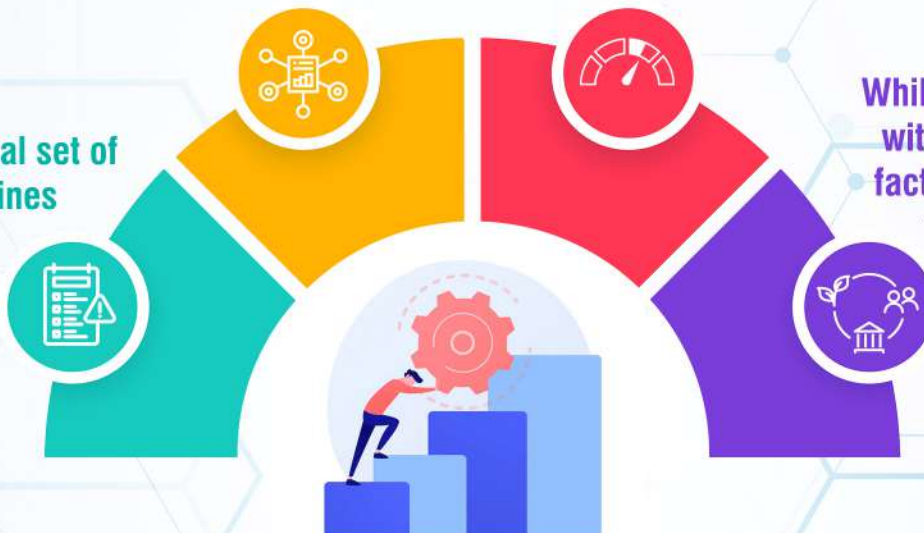

Challenges to Corporates

Multiple ESG frameworks are often confusing

Differing ESG scoring methodology adopted by different vendors

Lack of universal set of ESG guidelines

While companies struggle with ESG, investors are factoring ESG metrics in their investments

ESG solution for Corporates

Why EMAlpha

EMAlpha's core strength lies in helping companies align their ESG initiatives with the requirements of investors and regulators

ESG disclosures

EMAlpha reviews a company's reporting on multiple ESG standards

Spot opportunities

Because of the investment management experience of the co-founders, EMAlpha brings investors' perspective on ESG

Risk mitigation

EMAlpha helps in more efficient risk management through a better understanding of ESG challenges

Data

EMAlpha analyses relevant E, S, and G data for the companies

Inference

EMAlpha brings structure and sense to the information through data analytics

Correlate

EMAlpha's AI driven GUI compares a company's ESG performance in absolute terms and vis-à-vis its peers
